

The background of the entire image is a close-up, textured surface of rusted metal. The colors range from dark charcoal and black to various shades of brown, tan, and blue-grey, indicating different stages of oxidation and possibly some paint that has been worn away. The texture is rough and uneven, with visible grain and pitting.

ArteLuce

IL FERRO CHE ARREDA DAL 1967

Arte Luce si inserisce nel panorama delle più prestigiose realtà del made in Tuscany, un marchio tra i più rappresentativi dell'Italian Style del mondo. L'azienda è stata fondata da Enrico Benedetti a metà anni '60, dopo una lunga gavetta trascorsa ad imparare il mestiere nelle botteghe di Firenze. L'attività progetta e realizza da sempre collezioni di lampade, lampadari e complementi d'arredo in ferro battuto, decorato all'insegna della tradizione, dell'eleganza e del design.

Il marchio Arte Luce garantisce la qualità e l'esecuzione artigianale fiorentina delle proprie creazioni, fatte e rifinite a mano, dalla forgiatura del ferro alla decorazione. L'arte e la capacità interpretativa consente di poter eseguire lavori anche su disegno proprio del cliente, sempre nel rispetto delle più recenti normative del settore. Una lunga storia quella di Arte Luce. Dalla sua apertura è trascorso quasi mezzo secolo, in una sorta di percorso emozionale tra storia, cultura e manualità, ma la passione che guidava Enrico Benedetti prosegue inalterata, così come la tecnica di produzione e la professionalità, qualità oggi custodite gelosamente nelle mani della figlia Arianna e del marito Edo, gli attuali titolari dell'azienda. Qualunque sia il suo luogo di provenienza che sia l'Italia o qualsiasi altro paese del mondo, infatti Arte Luce oggi esporta in tutto il mondo, il cliente potrà sempre vedere il suo progetto prendere vita, creato dalle sapienti mani di questi artigiani toscani, custodi e portatori di secoli e secoli di tradizione, in un settore dove la Toscana detiene primati ancora inespugnati.

ArteLuce

IL FERRO CHE ARREDA DAL 1967

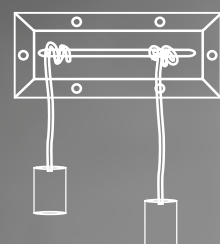

Arte Luce is part of the most prestigious realities in our land, that have brought the “Made in Tuscany” brand to be one of the most representative symbols of Italian Style in the world. The company was founded by Enrico Benedetti, in the half of the 1960's, after a long work he made to learn his profession in Florence laboratories. The factory has always projected and realised collections of lamps, chandeliers, and wrought iron furniture, decorated according to tradition, elegance and design. Working is a very ancient art and has been brought on with efforts until today. In addition to careful and precise traditional handicrafts techniques, nowadays there are constant efforts for quality and innovation. This union has brought to the creation of rare objects, able to be set in any locations, both private and commercial ones. The brand Arte Luce guarantees quality and Florentine handicrafts execution of its creation, made and refined by hand, from iron forging to its decorations. Their art and ability of interpreting allows them to work even on their customers designs, though respecting the most recent rules of the field. Arte Luce's story is very long. It has been open for almost half a century, in a sort of emotional story, among history, culture and handicraft. But the passion that lead Enrico Benedetti has been untouched, as well as production techniques and professionalism. These qualities are nowadays proudly kept by Enrico's daughter, Arianna and her husband Edo, the current owners of the company. No matter if they come from anywhere in the world, Italy or abroad, Arte Luce's customers will always see their projects brought to life, thanks to the knowledgeable hands of these Tuscan artisans, who have kept and continued their tradition for centuries, allowing Tuscany to keep its record in this field.
